

LED COB 100 PAR / RGBWA

100 WATT COB RGBWA LED PAR

The MICROH LEDCOB100PAR-RGBWA uses a 100 Watt COB LED light source. The COB LED allows the unit to produce fantastic even colour mixing compared to regular LED lamp sources. Use it for Stage, Uplighting and anywhere you need powerful even colour mixing. This unit is great for uplighting because it eliminates the multiple colours at the base produced by other style of leds.
